

"Any Way"

Verse 1 -

Wake up your crying eyes,
And hang out your fears to dry.
I remember what my mama said, "if you have nothing nice to say, then say nothing at all."
It's hard to find the innocence in a world where ignorance is bliss,
But it's always worth the fall.

Chorus -

We can't change the stars,
But we can shape the world,
Any way we want to, any way we want to.
We can't change the past,
But we can pave the road,
Any way we want to, any way we want to.

Verse 2 -

Give thanks, be humble and kind,
I know it takes strength to keep your mouth shut sometimes.
I remember what my father said, "once god and I both knew, now god only knows."
You spend your life searching for a truth that's usually right in front of you,
That your heart wasn't ready to show.

Chorus -

We can't change the stars,
But we can shape the world,
Any way we want to, any way we want to.
We can't change the past,
But we can pave the road,
Any way we want to, any way we want to.

Bridge -

So many preach "life" under their own fig tree,
Yet, we're fighting over seas and we got children in the streets.
It's time to ask yourself where you want your money,
I say give us our milk, I say give us our honey.
(One more time)
So many preach life under their own fig tree,
Yet, we're fighting over seas and we got children in the streets.
It's time to ask yourself where you want your money,
I say give us our milk, I say give us our honey.

Chorus -

We can't change the stars,
But we can shape the world,
Any way we want to, any way we want to.
We can't change the past,
But we can pave the road,
Any way we want to, any way we want to
